

Bolsover District Council

AUDIT COMMITTEE

13th April 2015

KEY ISSUES OF FINANCIAL GOVERNANCE

Report of the Executive Director – Operations

This report is public

Purpose of the Report

- The purpose of the Key Issues of Financial Governance report is to track progress concerning the implementation of previous recommendations from both External and Internal Audit and to inform the Audit Committee of progress in addressing those recommendations. It constitutes a standing item on all agendas of the Audit Committee.

1 Report Details

- 1.1 This report seeks to update Members of the Audit Committee concerning the main issues of financial governance where further progress or ongoing monitoring is required. In particular the report outlines issues raised by both External and Internal Audit in order to monitor progress in resolving these issues and to evaluate the overall progress of the Council's financial governance arrangements.
- 1.2 The Strategic Issues which are outlined below are consistent with the conclusions of the External Auditors (KPMG) report on the outcome of the 2013/14 Audit. The key messages from that report are as follows:
 - While the auditors have identified some issues where they have made adverse comment these are relatively minor. In overall terms the Council has continued to make further progress in its accounting arrangements which consolidates and builds upon the improvements secured in the 2012/13 final accounts. The issues raised by External Audit in respect of the 2013/14 Accounts are being addressed to help ensure that further improvements are secured in respect of the 2014/15 reporting process.
 - The Council needs to continue with its programme of work in respect of the management of contracts to ensure that all outstanding issues are satisfactorily resolved. The recent Internal Audit report in respect of Procurement evaluated the internal controls which were operating in this area as being marginal. Appendix 1 to this report outlines the steps that are being taken by Management in response to the issues that have been identified.

- The Annual Governance Statement for 2013/14 outlined the progress that has been made in respect of improving the Council's internal Control arrangements as evidenced by the reduction in the number of critical Internal Audit reports from 13 in 2012/13 to a figure of 3 in 2013/14. At this stage in the current financial year three reports have been evaluated as marginal, so even if no further critical reports are received there remains room for improvement.
- Whilst the Council has maintained good progress in protecting its financial resilience it needs to move to address the identified financial shortfalls in respect of 2014/15 onwards. The External Auditors report concludes that:

"Against a background of reduced funding and continued demand pressures it will become increasingly difficult to deliver savings in a way that secures long term financial and operational sustainability."

The issues identified above are all incorporated within the Action Plan set out in Appendix 1.

- 1.3 With regard to the Strategic Issues that have been agreed these are summarised in the table below which provides an outline of the issues together with an update of the current position. Given that these are Strategic Issues the responsibility for addressing them rests with the Chief Financial Officer working with the wider management team. Resolution of the issues is also dependent upon the active support of Elected Members. The role adopted by the Audit Committee has been one of monitoring and evaluating progress and where appropriate requiring and supporting further action from officers.
- 1.4 While there remain significant issues to address there is a clear trend of improvement. It is, however, important that the Council continues with measures that consolidate this improvement, ensure it is sustainable and addresses any outstanding issues.
- 1.5. In the light of the outcome of the 2013/14 year end report provided by KPMG together with the Council's own improvement plans there are a range of measures in place which are designed to address the issues of financial governance faced by the Council. These may be summarised as follows:
 - A training programme has been provided to all cost centre managers which covers a range of core competencies such as financial management, risk, performance, procurement, etc. In addition, the quarterly performance and finance meetings are now well established and provide an important opportunity to ensure that best practice is in operation across the full range of Council activities.
 - Our procurement arrangements have been revised and we have secured appropriately qualified and experienced support from Chesterfield Royal Hospital Trust. Officers are now actively utilising the contract information provided to meet the requirements of the Transparency Agenda as the basis for securing improvements in our contractual arrangements. This

information is now a standing item on the Quarterly Finance, Performance and Risk meetings.

- The capacity and resilience of the Accountancy team is being enhanced by ensuring appropriate training arrangements are in place.
- The Accountancy team will continue to work with cost centre managers in order to secure further improvements in accounting / financial management arrangements. The Chief Financial Officer together with the Head of the Internal Audit Consortium will seek to ensure that the Quarterly Finance, Performance and Risk meetings place an increased emphasis on the measures necessary to improve our financial governance arrangements.
- The work of Internal Audit has been incorporated into the existing Quarterly Performance and Financial management framework to ensure that recommendations are fully implemented and that the profile of the importance of internal control is raised within the Council. This will both help secure the improvements in internal control required by the Council whilst helping ensure Internal Audit remain fully compliant with the new U.K. Public Sector Internal Audit Standards.
- Finally, we will continue to monitor the position with respect to the delivery of the Internal Audit Plan.

Future Key Issues of Financial Governance reports will update the Audit Committee in respect of progress against the actions detailed above.

- 1.6 The revised Strategic Key Issues of Financial Governance are set out in Appendix 1 which is provided below.

2 Conclusions and Reasons for Recommendation

Conclusions

- 2.1 The report is intended to provide information to allow the Audit Committee to consider the progress that has been secured in maintaining and improving the Council's financial governance arrangements. While the evidence provided within the report indicates that the Council's financial governance arrangements are robust and are continuing to improve it is important that this progress is maintained and outstanding issues are resolved.

Reasons for Recommendations.

- 2.2 To allow the Audit Committee to undertake its function of undertaking an ongoing independent review of the Council's financial governance arrangements.

3 Consultation and Equality Impact

Consultation.

- 3.1 There are no issues arising from this report which necessitate a detailed consultation process.

Equalities.

- 3.2 This report does not have any direct implications for Equalities issues.

4 Alternative Options and Reasons for Rejection

- 4.1. Given that the Council has a clear commitment to improving its financial governance arrangements it is appropriate that a formal reporting mechanism is in place to the Audit Committee. This approach is in line with good professional practice and accordingly other options have not been actively considered. While there are options as to the format of this report the current format has been brought before the Audit Committee for a period in excess of two years and has been amended to reflect the views of the Committee. Over this period there has been a systematic improvement in the Council's Financial Governance arrangements which indicate that the approach adopted has assisted in securing the necessary outcomes.

5 Implications

5.1 Finance and Risk Implications

Financial

There are no additional financial implications for the Council as a result of this report.

Risk

This report is intended to assist in ensuring that the Council has robust financial governance arrangements in place. As such it is a key mitigation against any failure or weakening in these arrangements which would have a significant impact upon both the Council's financial performance and its service delivery arrangements.

5.2 Legal Implications including Data Protection

There are no Legal or Data Protection issues arising directly from this report.

5.3 Human Resources Implications

There are no Human Resources issues arising directly out of this report.

6 Recommendations

- 6.1. It is recommended that Audit Committee considers whether the Strategic Issues of Financial Governance as set out in the report reflect the key issues facing the Council, and raises any issues of concern which it may have with progress to date.

7 Decision Information

Is the decision a Key Decision? (A Key Decision is one which results in income or expenditure to the Council of £50,000 or more or which has a significant impact on two or more District wards)	No
District Wards Affected	None Directly.
Links to Corporate Plan priorities or Policy Framework	Robust financial Governance arrangements underpin the effective operation of the Council and its ability to secure the full range of Corporate Plan Priorities.

KEY ISSUES OF FINANCIAL GOVERNANCE SUMMARY

Issue Raised	Progress to date including target dates.
<p>1. Take effective steps to balance the Council's budget over the period of the Medium Term Financial Plan.</p>	<p>The Council will secure a balanced budget in respect of the previous financial year (2014/15) achieving in full its savings target of £0.447m. The budget in respect of the current financial year (2015/16) has identified a savings target of some £0.350m which officers are of the view should be relatively easy to secure. However, the shortfalls in respect of 2016/17 and 2017/18 are both in the region of £1m. The position in respect of these latter years is made more difficult by the fact that the actual financial settlement will not be provided until the Autumn Statement of the incoming Government in November 2015. Against this background it is important that the Council continues to progress its growth and transformation strategies to secure financial sustainability and enable it to address the identified shortfall.</p>
<p>2. To secure further improvements in financial reporting with respect to the Council's published accounts and in the Council's financial management arrangements.</p>	<p>The Council has continued to improve the quality of its financial accounts as demonstrated by the External Audit reports in respect of both 2012/13 and 2013/14. The improvements secured to date provide a firm foundation for consolidation of progress. The Accountancy Team is well established and is well placed to secure further improvements especially in respect of work with service managers to deliver the improved financial management required against the increasingly challenging financial position facing local authorities. Appropriate training programmes are in place for all members of the team.</p>
<p>3. To improve the Council's Internal Control arrangements, and to strengthen the culture of effective management and budgetary control across the Authority.</p>	<p>This Key Issues of Financial Governance report, together with reports from Internal and External Audit should enable the Audit Committee to monitor the progress that is being made in respect of securing improvements in our internal control arrangements. Internal Audit have undertaken a more prominent role in the Council's Performance Management arrangements since April 2013.</p> <p>A comprehensive training programme has been delivered to all cost centre managers during the summer of 2014, and measures will be taken to strengthen the communications around the importance of internal control and the Council's wider financial position.</p> <p>We will monitor the position with respect to the managerial arrangements operating within Internal Audit and will work to</p>

	<p>ensure that the agreed Audit Plan is delivered by the year end. The reduction in the number of Internal Audit reports where areas have been assessed as marginal between 2012/13, 2013/14 and 2014/15 supports the view that the internal control environment is improving.</p>
<p>4. To ensure that issues around the Council's contractual arrangements are resolved and that good quality arrangements remain in place.</p>	<p>The recent review by Internal Audit has concluded that managerial arrangements in this area whilst improved remain marginal. A number of measures have been put in place in order to secure further improvement which can be summarised as follows:</p> <ul style="list-style-type: none"> • A training programme including a significant element concerning procurement contracts has been delivered. • The Council is using the contract data required under the Transparency Agenda as the basis for securing improvements in our managerial arrangements. • The Council has entered into a shared service arrangement with Chesterfield Royal Hospital in order to secure access to specialist procurement advice. • All recommendations made in the Internal Audit report will be implemented. • There will be an increased emphasis on Procurement issues as part of the Quarterly Finance, Risk and Performance meetings.
