RELEVANT CORPORATE AIMS

REGENERATION – Developing healthy, prosperous and sustainable communities. The use of Working Neighbourhoods Fund will affect the wider determinants of Worklessness by commissioning activity that takes account of the effects upon the wellbeing of residents in local communities in respect of their health, wealth and secure employment; all of which contributes to building sustainable communities in the District.

TARGETS

National Indicator (NI) 153 measured progress on reducing concentrations of worklessness within local authority areas, particularly those in receipt of the WNF. Specifically, the indicator measured the out-of-work benefits claimant rate in the worst performing neighbourhoods – these were defined as Lower Super Output Areas (LSOA) with a benefit claimant rate of 25% or more as at February 2007 (4 quarter rolling average).

A local target was negotiated within the Derbyshire Local Area Agreement (LAA) to reduce the average claimant rate in the worst performing neighbourhoods from 28.7% to 25.7% by March 2011. To take account of the impact of the economic downturn this target was later revised to an average claimant rate in the NI153 areas that was 1.1 percentage points lower than that of the East Midlands.

Following the change of Government in 2010, NI153 figures ceased to be published centrally and the target is no longer active within the LAA. However, the Chief Executives and Partnership Team continues to calculate and publish the same 'out of work benefit claimant' data for the purpose of consistently monitoring the impact of the WNF programme.

VALUE FOR MONEY

The principles of Value for Money – economy, efficiency and effectiveness will be applied in all interventions considered.

THE REPORT

Background

1. Members will recall the Authority's award of Working Neighbourhoods Fund in 2008 (Minute No. 886 refers). The Working Neighbourhoods Fund (WNF) was introduced as part of the Local Government Finance Settlement and was paid as one element of the Area Based Grant. It provides resources to local authorities to tackle worklessness and low levels of skills and enterprise in their most deprived areas.

The WNF allocation to Bolsover District Council is £7,066,100.

2. As part of the Council's approach to tackling worklessness, a Commissioning Framework was established to allocate the funding in two ways:-
 - i) the Local Authority's focus upon the people who are **already receiving benefits** and are unemployed and try to encourage them back into work and off benefits, and
 - ii) tasking the Local Strategic Partnership for Bolsover with identifying measures to address and **prevent the need to be in receipt of benefits** or become unemployed
3. All WNF has now been received by the Council as it was paid over the 2008-11 period. As the WNF is non-ringfenced it has been carried into 2011/12 to enable interventions to continue and impact in the District. Residual WNF has also been allocated to selected projects during 2012/13 to maximise delivery impact in the absence of further area based grant.

2011/12 Quarter 3 Report

4. The attached report titled 'Quarter 3 Update, October – December 2011' has been produced following the submission of quarterly monitoring returns by projects that have been funded to date through the Council's Working Neighbourhoods Fund. The attached report provides:
 - An overview of activity currently taking place in relation to Working Neighbourhoods Fund planning, commissioning, and future activity in relation to securing additional funding

- Unemployment statistics including an analysis of the National Indicator (NI) 153, Job Seekers Allowance claimant counts, the number of 16-18 year olds Not in Employment, Employment or Training)
- Information in relation to progress of individual projects in the third quarter of 2011/12
- Case studies of individuals assisted through WNF interventions to demonstrate impact
