

Question submitted to Councillor Sandra Peake by Councillor Peter Roberts

In paragraph 5.1.3 of the report on Bolsover Homes Funding to Council on 22nd July 2020 it states that there is a risk of the right to buy applying to the new properties built. It also states that the cost floor ceiling would result in these properties being protected for 15 years. However officers maintain that the protection is only for 3 years.

Can Councillor Peake explain the discrepancy?
