PURPOSE/SUMMARY OF REPORT

To provide Council with the necessary information to approve the Authority's suite of Treasury Strategies for 2023/24 to 2026/27.

REPORT DETAILS

1. Background

- 1.1 Treasury risk management at the Authority is conducted within the framework of the Chartered Institute of Public Finance and Accountancy's *Treasury Management in the Public Services: Code of Practice 2021 Edition* (the CIPFA Code) which requires the Authority to approve a treasury management strategy before the start of each financial year. This report fulfils the Authority's legal obligation under the *Local Government Act 2003* to have regard to the CIPFA Code.
- 1.2 CIPFA issued a revised Prudential Code and Treasury Management Code in late December 2021, these strategy reports include the full implementation of the revised Codes.
- 1.3 Since 2019/20 there has been a requirement to produce three separate treasury strategies. This report therefore, includes the strategy for Treasury Management, The Capital Strategy and the Corporate Investment Strategy.
- 1.4 As in previous years, the Authority's Treasury Management Strategy provides the framework for managing the Authority's cash flows, borrowing and investments, and the associated risks for the years 2023/24 to 2026/27. The Treasury

Management Strategy sets out the parameters for all borrowing and lending as well as listing all approved borrowing and investment sources. Prudential indicators aimed at monitoring risk are also included (Appendix 1).

- 1.5 The Capital Strategy is intended to be a high level, concise overview of how capital expenditure, capital financing and treasury management activity contribute to the provision of the Authority's services. The report also provides an overview of the associated risk, its management and the implications for future financial sustainability. The Capital Strategy sets out the capital expenditure plans for the period and how they will be financed. It also provides information of the minimum revenue provision, capital financing requirement and prudential indicators aimed at monitoring risk (Appendix 2).
- 1.6 The Corporate Investment Strategy focuses on investments made for service purposes and commercial reasons, rather than those made for treasury management. Investments covered by this strategy include earning investment income through commercial investments or by supporting local services by lending to or buying shares in, other organisations (Appendix 3).

2. Reasons for Recommendation

- 2.1 This report outlines the Authority's proposed suite of Treasury Strategies for the period 2023/24 to 2026/27 for consideration and approval by Council. It contains:
 - The Treasury Management Strategy which provides the framework for managing the Authority's cash flows, borrowing and investments for the period.
 - The Capital Strategy which is intended to provide a high level, concise overview of how capital expenditure, capital financing and treasury management activity contribute to the provision of the Authority's services.
 - The Corporate Investment Strategy which focuses on investments made for service purposes and commercial reasons, rather than those made for treasury management.
