

Internal Audit Charter for Chesterfield Borough Council, Bolsover District Council and North East Derbyshire District Council

Purpose

The purpose of the internal audit function is to strengthen each Councils ability to create, protect, and sustain value by providing the Audit Committee and management with independent, risk-based, and objective assurance, advice, insight, and foresight and contributing to the authority's annual governance review.

The internal audit function enhances each Councils:

- Successful achievement of its objectives.
- Governance, risk management, and control processes.
- Decision-making and oversight.
- Reputation and credibility with its stakeholders.
- Ability to serve the public interest.

Each Councils internal audit function is most effective when:

- Internal auditing is performed by competent professionals in conformance with the IIA's Global Internal Audit Standards in the UK public sector, which are set in the public interest.
- The internal audit function is independently positioned with direct accountability to each Audit Committee.
- Internal auditors are free from undue influence and committed to making objective assessments.

Commitment to Adhering to the Global Internal Audit Standards

Each Councils internal audit function will adhere to the mandatory elements of The Institute of Internal Auditors' International Professional Practices Framework, which are the Global Internal Audit Standards. The Head of the Internal Audit Consortium will report to each Councils Audit Committee and senior management annually regarding the internal audit function's conformance with the Standards, which will be assessed through a quality assurance and improvement program.

Mandate

The Accounts and Audit Regulations 2015

Internal Audit (extract from the Accounts and Audit Regulations 2015)

5.(1) A relevant authority must undertake an effective internal audit to evaluate the effectiveness of its risk management, control and governance processes, taking into account public sector internal auditing standards or guidance.

(2) Any officer or member of a relevant authority must, if required to do so for the purposes of the internal audit—

(a) make available such documents and records; and (b) supply such information and explanations;

as are considered necessary by those conducting the internal audit.

(3) In this regulation “documents and records” includes information recorded in an electronic form.

Authority

Each Councils Audit Committees grants the internal audit function the mandate to provide the Audit Committee and senior management with objective assurance, advice, insight, and foresight.

The internal audit function’s authority is created by its direct reporting relationship to the Audit Committee. Such authority allows for unrestricted access to the Audit Committee.

The Audit Committee authorises the internal audit function to:

- Have full and unrestricted access to all functions, data, records, information, physical property, and personnel pertinent to carrying out internal audit responsibilities. Internal auditors are accountable for confidentiality and safeguarding records and information.
- Allocate resources, set frequencies, select subjects, determine scopes of work, apply techniques, and issue communications to accomplish the function’s objectives.
- Obtain assistance from the necessary personnel of each Council and other specialised services from within or outside each Council to complete internal audit services.

Independence, Organisational Position, and Reporting Relationships

The Head of the Internal Audit Consortium will be positioned at a level in the organisation that enables internal audit services and responsibilities to be performed without interference from management, thereby establishing the independence of the internal audit function. The Head of the Internal Audit Consortium will report functionally to each Councils Audit Committee and administratively (for example, day-to-day operations) to the Directors of Finance. This positioning provides the organisational authority and status to bring matters directly to senior management and escalate matters to the Audit Committee, when necessary, without interference and supports the internal auditors’ ability to maintain objectivity.

The Head of the Internal Audit Consortium will confirm to each Councils Audit Committee, at least annually, the organisational independence of the internal audit function. If the governance structure does not support organisational independence, the Head of the Internal Audit Consortium will document the characteristics of the governance structure limiting independence and any safeguards employed to achieve the principle of independence. The Head of the Internal Audit Consortium will disclose to the Audit Committee any interference internal auditors encounter related to the scope, performance, or communication of internal audit work and results. The disclosure will include communicating the implications of such interference on the internal audit function's effectiveness and ability to fulfill its mandate.

- Coordinate activities and consider relying upon the work of other internal and external providers of assurance and advisory services. If the Head of the Internal Audit Consortium cannot achieve an appropriate level of coordination, the issue must be communicated to senior management and if necessary escalated to the Audit Committee.

The Head of the Internal Audit Consortium will report periodically to the Audit Committee and senior management regarding:

The program will include external and internal assessments of the internal audit function's conformance with the Global Internal Audit Standards, as well as performance measurement to assess the internal audit function's progress toward the achievement of its objectives and promotion of continuous improvement. The program also will assess, if applicable, compliance with laws and/or regulations relevant to internal auditing. Also, if applicable, the assessment will include plans to address the internal audit function's deficiencies and opportunities for improvement.

Annually, the Head of the Internal Audit Consortium will communicate with the Audit Committee and senior management about the internal audit function's quality assurance and improvement program, including the results of internal assessments (ongoing monitoring and periodic self-assessments) and external assessments. External assessments will be conducted at least once every five years by a qualified,

independent assessor or assessment team from outside the Council; qualifications must include at least one assessor holding a CMIIA or CCAB qualification and suitable public sector internal audit experience.

Scope and Types of Internal Audit Services

The scope of internal audit activities also encompasses but is not limited to objective examinations of evidence to provide independent assurance and advisory services to the Audit Committee and management on the adequacy and effectiveness of governance, risk management, and control processes for the Council.

The nature and scope of advisory services may be agreed with the party requesting the service, provided the internal audit function does not assume management responsibility. Opportunities for improving the efficiency of governance, risk management, and control processes may be identified during advisory engagements. These opportunities will be communicated to the appropriate level of management.

- The integrity of information and the means used to identify, measure, analyse, classify, and report such information is reliable.
- Resources and assets are acquired economically, used efficiently and sustainably, and protected adequately.
