

## Agenda Item 4.2 Tenant Satisfaction Measures – Perception Measures

### **Key points of note:**

- 3147 emails sent on 04/12/25, 2015 paper copies posted 28/11/25. A total of 6042 tenants across 4783 households.
- 528 responses as at 06.01.25 – we ideally need a minimum of 536 in total to meet our threshold, but this is still a low response rate. Our current response rate is 11.03%.
- Responses following the initial mailout are not representative of the stock, with more coming from Housing for Older People (60.8%) than General Needs (31.8%). 7.4% of responses are from tenants in Sheltered Housing, which is the highest return from this group since the TSMs commenced.
- Our stock profile on commencing the survey was General needs (53.1%), Housing for older people (43.1%) and Sheltered Housing (3.8%) so ideally, we need to secure further responses from tenants in General Needs Housing.
- The largest number of responses is from single tenants (71.1%).
- There is limited interest in downsizing.
- Responses are not equal across the four contact centre areas – Clowne (29.7%), Bolsover (25.0%), Shirebrook (23.5%) and South Normanton (21.8%). This does differ to the stock profile per patch as at end of Dec 25 – Clowne (27.08%), Bolsover (23.18%), South Normanton (24.61%), Shirebrook (25.12%).
- Over half of respondents are female (56.8%).
- Over 81% of respondents are 65+
- So far, we have not invited responses via text message, as last year this methos had very limited effect. Those receiving a paper copy also have access to a QR code to enable electronic response if preferred. 83.5% have responded by post and 14.4% have responded via email link. These ratios are very different to last year.

\*\*Due to the higher response from older tenants the data shows elevated satisfaction levels for 2025/26. It is likely the final reported figures will be lower once weighting in applied.

	Above national median average OR meet internal target
	Within 5% of national median average OR internal target
	More than 5% difference of national median average or internal target

## OFFICIAL

TSM Code	TSM Issue	Bolsover published 2023/24	Bolsover published 2024/25	National median average 2024/25 (Benchmark)	In-year Unweighted data (06.01.26)
<b>TP01</b>	Overall satisfaction	86.8%	86.0%	71.8	<b>87.5%</b>
	% of tenants reporting a repair (last 12 months)	66%	68%	67.8 (sector total)	<b>66.7%</b>
