/ Bolsover Partnership Overview

Our Vision

“Our Sustainable Community Strategy has a vision of a diverse, healthy, fair and prosperous district, building on the strengths of our industrial past to become a vibrant, thriving community capable of meeting the challenges and the opportunities of the future”

Introduction

Welcome to Bolsover Partnership’s Funding and Performance Monitoring Report for the period April to September 2019. This report provides an update on activities that the Partnership has been involved with over the past 6 months and reports on outcomes and achievements of commissioned programmes to support and work with residents of all ages across the whole district.

This report shows that despite shrinking funds we continue to use our resources to maximum effect by collaborating locally, and with our near neighbours, to deliver an array of projects and interventions.

Contained within this report for April to September 2019 is:

- ✓ An overview of the various programmes, initiatives and activities that the Partnership Team have been involved with
- ✓ The financial position of funding streams managed by the Partnership
- ✓ An update on the Council’s Business Growth Fund
- ✓ Progress made through the B@Home Partnership and social value outcomes
- ✓ An update on the Building Resilience Programme funded by the Controlling Migration Fund
- ✓ How Grants to Voluntary Organisations have been impacting their local communities
- ✓ Progress on the LEADER programme which operates across Bolsover and North East Derbyshire
- ✓ Case studies demonstrating the impact of project activity to local people
- ✓ Statistical insight highlighting key statistics/trends for the district in respect of Deprivation and Vulnerable Groups.

Funding Overview

The Partnership Strategy and Policy Team manage a range of different funding streams, and the following page outlines which projects were delivered between April and September 2019; this demonstrates how the Partnership uses resources to deliver against the priorities within the Sustainable Community Strategy. Further details of which are provided throughout this report.

/ Programmes Updates

/ PALS (Physical Activity and Lifestyle Support)

*PALS is currently delivering a pilot of the programme in Creswell only

PALS is a programme aimed at changing behaviours and finding solutions to help people face their daily challenges which will allow them to concentrate more on their health and wellbeing.

PALS brings together different agencies and services to support individuals and families in their households and within their lives. It helps to assess their needs, unpick situations, and provide consistent support in an effort to improve their lifestyle and become more physically active.

The PALS approach recognises that there are three key elements when attempting to create behaviour change:

- ✓ Capability to change
- ✓ Opportunity to change
- ✓ Motivation to change

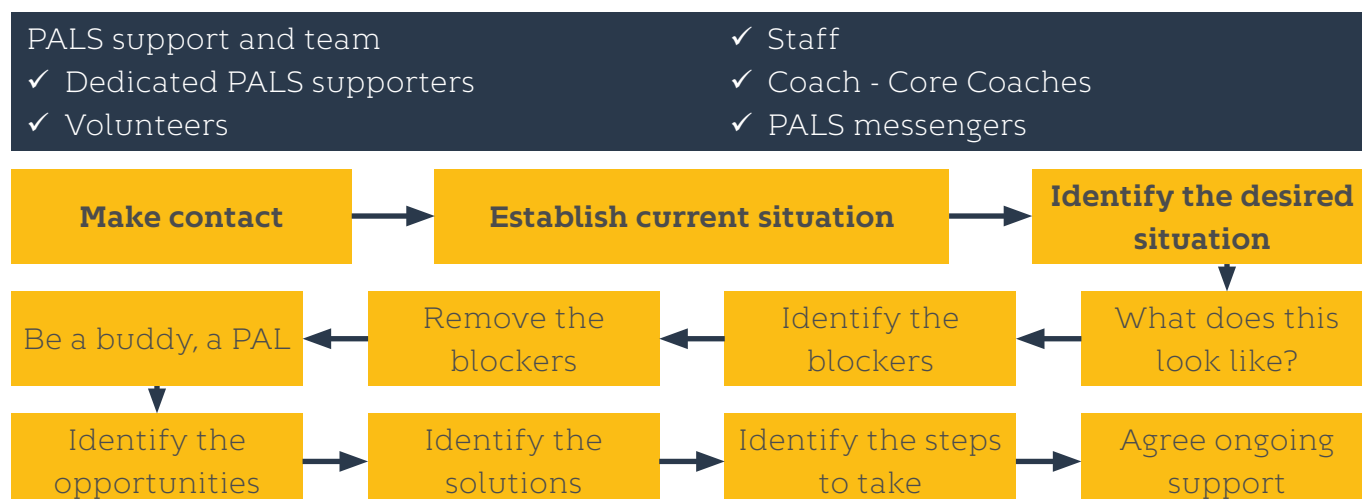

Alongside these, there are also five key factors that have an impact on the above:

- ✓ Age
- ✓ Gender
- ✓ Socio-economic
- ✓ Ethnicity
- ✓ Disability/Condition

It's more than just signposting, it's about supporting!

A PALS coordinator's role is to help join the dots as there are many agencies and organisations working hard to provide services to the people within their community with the aim of improving overall community health and wellbeing.

We create a package/personal plan to enable a path to a more active and healthier lifestyle working with other agencies to navigate through what is available for the individual or family.

/ Case Study

Frank was referred to the PALS programme through Limestone House. Frank has very poor eye sight and is hard of hearing. He currently goes everywhere on an electric buggy because he has poor balance at present.

Frank had missed numerous appointments at Sheffield City Hospital for his eyes to be treated due to not being able to get there via public transport and also when transport has been provided Frank has often got the times and dates wrong.

On my initial meeting with Frank at Limestone House I managed to get him another appointment at the Hospital and arranged for him to be picked up by Derbyshire Ambulance non-emergency service. Frank also showed a willingness to become more physically active but I thought the priority was for him to get his eyes and ears sorted as this could be causing his poor balance.

On my next meeting with Frank I went to his bungalow to have a chat and to see how he was getting on living on his own since the death of his wife a few years ago. Frank had no heating or hot water on due to not being able to see where to insert the card in the box outside which I sorted for him. Frank thought that someone had entered his property without him knowing and working with our housing department we have recently had Franks locks changed which has made a big difference as Frank would not go to bed due to being too scared but now the locks have been changed he feels more secure in the bungalow. Subsequently

I also arranged for an assessment to be carried out a housing officer on Frank's bungalow to make sure it was safe.

I arrived at Frank's house on the day of his hospital appointment around 5:15am to make sure he was up and ready and made sure he got away to his appointment on time.

Following on from Frank's appointment he is now ready to start attending our falls prevention classes we run in Creswell and is really looking forward to it.

Frank had this to say about the programme;

"I would not know where I would be if it wasn't for the help I have received from Craig. I now have hospital appointments booked in and Craig makes sure I attend these. I am starting to feel more independent and I am now looking forward to attending the chair based classes initially with Craig and hopefully meeting new people as well as helping me with my balance and co-ordination"

Finally I asked Frank what he thinks of the PALS programme and he said;

"The programme is fantastic and will help lots of people and long may it continue."

/Lloyds Bank Foundation

Bolsover Partnership has been approached by the Lloyds Bank Foundation (LBF) who are looking to partner with organisations in eight towns or small Local Authorities, where there's an appetite for testing new ideas, and for having open and honest conversations about how services could look different in the future. This seemed right up our street, so we invited Jill Baker from LBF to come and meet with key representatives of Bolsover Partnership and the VCS! Jill was really impressed with our existing partnership arrangements and we've had recent confirmation that Bolsover will indeed be one of the selected areas that the LBF will work with. Harriet Balance has since been appointed to post by LBF so we organised a two day visit to the district so that Harriet could get a better understanding of the area and meet key representatives from the Partnership.

LBF's development objectives are to:

1. Help charities to diversify their income

This will involve undertaking research into how LBF's funding fits into the wider context of charities' incomes, as well as looking at how services are designed, developed, delivered and resourced in any given area. This can help change the system, so it works for everyone - commissioners, funders and businesses so that small local charities are able to do the work they do best more effectively.

2. Encourage cross-funder collaboration

By working closely with other funding services to make sure they're communicating and collaborating. These might include grant makers, community foundations, local authorities, clinical commissioning groups, public health and police, local businesses and universities.

3. Build Business Connections

Using the knowledge and experience of Lloyds Banking Group to explore the most effective methods of partnership between businesses and charities. This

could be skills-based volunteering, trustee recruitment, charity mentoring, but also exploring ways of working with a range of other local businesses to help charities widen their support network and source help and support and charitable income (e.g. through payroll giving).

The next stage will be for LBF to organise a one day workshop with representatives from across Bolsover Partnership to collaborate and agree a key priority area for the work to be focused towards. This was due to take place in November but has been re-scheduled to January 2020.

/ Voluntary Community Sector (VCS) Support and Social Connectedness

In April this year, Bolsover District Council on behalf of Bolsover Partnership and the wider VCS went out to tender for an established and quality assured VCS infrastructure organisation to provide a strategic voice for the Bolsover district sector as well as operational delivery to support individuals and groups. This followed the recommendations of the feasibility study undertaken by Locality to identify a preferred model for the district.

Tender evaluations and clarification interviews took place during May, which resulted in Bassetlaw CVS successfully securing the contract following the submission of an excellent tender and subsequent presentation. BCVS's model combines the benefits of having an existing infrastructure and track record, and therefore quick lead in time, whilst recognising that there is a vibrant and local network that can be utilised to bring in local delivery elements as required. BCVS also brings a wealth of experience of working with Clinical Commissioning Groups on commissioning and social prescribing and we are looking forward to benefiting from that expertise and best practice.

BCVS model for delivery involves the appointment of two Locality Workers. Simon Redding commenced employment on the 1st October and has already made links with many community groups and organisations. A service manager has also been recruited by BCVS and will support programme delivery. This is an in-kind addition covered by BCVS free reserves. Recruitment to the second Locality Officer post is currently on hold and will be reviewed once local insight regarding need has been established. On the ground delivery will be supported by the Service Manager and BCVS Involve Volunteering throughout the next quarter.

A bespoke e-bulletin 'Bolsover Together' has been created which is circulated to 238 contacts on a weekly basis and social media remains active with 300 posts during the July to September reaching 9101 people, and 194 articles added to the website page. Six community groups have been supported with governance advice and volunteer recruitment. The BCVS director continues to work at a strategic level and is actively engaged with the following:

- ✓ 3D Consortium
- ✓ Lloyds Bank Foundation
- ✓ Bolsover Can Do Group
- ✓ BNED Place Alliance
- ✓ DCC Public Health
- ✓ Active Derbyshire
- ✓ Building Better Opportunities
- ✓ The emerging Primary Care Networks.

/ Social Connectedness

In April 2019, Bolsover Partnership was allocated £54,000 to develop local approaches to social connectedness. Indicators of loneliness have been identified as widowed, living alone 65+, limited day to day activities, no car, pension credits, age 60+ and mobility.

Approximately 50% of the funding has

been allocated to BCVS to enable the two Locality Officer posts described above to be increased from part time to full time posts in order to provide greater resource to the VCS within Bolsover district. This work will initially involve:

- ✓ the establishment of a Social Connectedness sub group which will report directly to the Health and Well-Being Partnership
- ✓ a mapping exercise to understand existing services and current gaps
- ✓ the development of an action plan for activities to improve social connectedness over the next two years.

The remaining funding will be used to fund activities agreed within the Social Connectedness Action Plan and allow further development of partnership approaches to reduce the burden of social isolation within local communities.

/ One Public Estate

The North Midlands One Public Estate (OPE) programme is collaborative partnership focussing on public service transformation through co-location and co-delivery of services, using property and land assets as an enabler. Under Phase 6, a feasibility study to consider the viability of developing a joint multi agency hub with key service providers in Shirebrook has been undertaken by Gleeds consultants.

The critical success factors for a future hub are:

- ✓ Integrated delivery of co-located services
- ✓ Better access and convenience of location for customers and end users
- ✓ More fit for purpose public estate
- ✓ Car parking and external spaces
- ✓ Flexibility for future proofing

A number of options have been developed on sites at Patchwork Row, Carter Lane

and Portland Road. These site options are now in the process of being evaluated against the identified critical success factors, in order that a full business plan of the preferred site can be completed.

/ Controlling Migration Funding - Phase 2 monies secured

Bolsover Partnership has been successful in securing additional funding through Phase 2 of the Controlling Migration Fund, managed by the Ministry of Housing, Communities and Local Government. £57,571 was awarded in 2018/19 and a further £196,361 awarded in 2019/20. The bid contained a number of different strands, and a brief outline is provided below:

Business Forum Co-ordinator - Following a tender process, East Midlands Chamber of Commerce have been appointed to lead this area of work. Their contract which commenced in July 2019 and will run until April 2020 aims to develop a strong business forum focussed on the retailers in and around the market square, market traders, and businesses from the wider town and provide co-ordinated development and delivery of an action plan for the forum. Nick Chischniak is leading this work, alongside his colleague Laurie Wootten. Two meetings of a newly established forum have taken place to date, and setting up arrangements for the forum's longevity in mind has been a cornerstone of the way the work is being conveyed to those involved so that the ownership and management of forum tasks can be as seamless as possible once the co-ordinator steps back after April 2020 when the contract expires. There has been and continue to be some challenges, including uniform business hours, IT skills, communication and identifying a forum chair, however, 41 businesses have been engaged to date and commitments of involvement moving forward have been secured. Events being planned aimed at increasing footfall in the market square, and bringing businesses and the

community together include:

7th December 2019 - pop-up Christmas cinema

January 2020 - football themed event on the market square

22nd February 2020 - lantern parade around Shirebrook, finishing on the market square

Jeremy Flint, Proprietor of H Flint and Son on Main Street, in Shirebrook said *"I feel that Shirebrook's retail offering is likely to be much stronger in the long run through the businesses working together thanks to the creation of a Forum that allows them a platform they can all use."*

Multi User Games Area (MUGA) at Rainbow Park - Bolsover District Council is leading the procurement of this work, which will provide further enhancements at Rainbow Park through the installation of a MUGA. This is intended to reduce anti-social behaviour in the area.

Teaching Assistant/Family Liaison Support - additional teaching assistant/family liaison support at 3 schools with highest levels of pupils with English as an additional language. This was as a result of learning from Phase 1 that identified the additional support would be most effective at primary, rather than secondary, age.

Welcoming Information Pack - to be designed both in hard copy and online formats, the provision of service information packs to aid migrants and support integration

Landlord's Forum - as a result of the work undertaken in Phase 1, this area of work will see the establishment of a landlord's forum to improve housing and wider impacts.

/ Public Health Locality Funding

Derbyshire County Council's (DCC) Public Health Localities and Place-based work is seen as integral to addressing the wider determinants of health; in particular, employment and skills, financial inclusion, community cohesion and social isolation experienced by some of Derbyshire's most vulnerable communities.

Bolsover district receives an annual allocation of Public Health Locality Funding from Derbyshire County Council (DCC). The allocation to Bolsover district under this programme in 2019/20 is £78,097 – this is broken down as follows:

- ✓ £68,097 under the fair share formula
- ✓ £10,000 for a small grants fund

The Bolsover Partnership Commissioning Group agrees how to allocate the Public

Health locality funding based on evidence of need, impact and available funding. The following section provides an update and case study on all activities funded by Public Health.

Unless otherwise stated, social value measurements detailed throughout this report have been calculated using the HACT Social Value Bank and the work is attributed as follows:

Title: Community investment values from the Social Value Bank

Authors: HACT and Daniel Fujiwara (www.hact.org.uk / www.simetrica.co.uk)

/ Bolsover Wellness Plus

Social impact measurement: £197,616

- ✓ Good overall health £74,217 (HACT)
- ✓ High confidence £27,483 (HACT)
- ✓ Frequent moderate exercise £75,288 + £6,041 Children's Wellness (HACT)
- ✓ Frequent mild exercise £9,062 + £3,450 Active confidence (HACT)
- ✓ Regular volunteering £2,075
- ✓ Improvements in mental health £6,174 (Quality Adjusted Life Year for a person with mild mental health issue according to Sainsbury Centre for Medical Health, 2009, 80% deadweight)
- ✓ Investment: £63,736 (Wellness £49,997; £4,989 Active Confidence; £3,750 Children's Wellness; £5,000 Active Lunchtimes)
- ✓ SROI £1 – £3.10

Bolsover Wellness is delivered by Bolsover District Council with Public Health Locality Funding. Outputs/outcomes achieved April to September 2019:

- ✓ Bolsover Wellness – 348 patients referred; 157 completed the 12 week programme during the quarter; 155 patients are committed to continuing a healthier lifestyle (99%), and 100% reported improvements in health on completion).
- ✓ 235 chair based exercise sessions delivered and 1766 attendances
- ✓ Overall, the number of attendances at either the gym, swimming pool or thermal suite by referral clients over the past 6 months has been 5576
- ✓ 8 Active Outdoor sessions delivered benefiting 8 clients, of which 75% completed the programme.
- ✓ 17 self-help activity sessions benefiting 9 clients

- ✓ Active Lunchtimes - 39 schools participating, 75 supervisors were trained to Play Leaders so they are able to engage a wider number of pupils in physical education activities; and 31 schools achieved the Schools Games Marks. 608 structured lunchtime activities have taken place and 816 mini leaders trained
- ✓ 5/60 programme - 7 schools involved, 106 sessions delivered and 354 children participating in a range of activities, resulting in increased levels of activity for 82% and improved diet and nutrition and weight management for 62%
- ✓ Children's Wellness - 15 Extreme Wheels sessions (5 in Shirebrook and 10 in Whitwell) with 149 beneficiaries and 267 attendances in total. Other Extreme Wheels sessions funded by the Community Safety Partnership

and Parish Councils/Galas took place in Bolsover, South Normanton, Tibshelf, Doe Lea, Pleasley/New Houghton and Barlborough.

/ Case Study - Bolsover Wellness

Miss W was referred by Welbeck Road Health Centre in May 2019. Her referral was for a Body Mass Index of 38, type 2 diabetes, lower back ache and joint pain in her legs. She started the Bolsover Wellness Programme in June 2019 with a weight of 102.6kg, waist 121 cm circumference and blood pressure of 137/81, pulse 90.

Miss W attended swimming initially 3 times a week for 60 minutes and intended to start using the gym. At her 6 week assessment Miss W had lost 7.6kg, 22 centimetres from the waist which was now 99cm and weighed 95kg.

At the 12 week assessment Miss W is now swimming 4 to 5 times per week and 12 week assessment readings

for weight are 89.5kg, 95cm for waist circumference, blood pressure of 112/76 and BMI of 33.1. This has resulted in the Doctor stopping her Metformin medication for diabetes and Miss W reports her back and leg pain had reduced.

She quotes "I've loved taking part in the programme, I never got round to using the gym as I've enjoyed the swimming so much and it's changed my whole way of life, to keep fit and look after myself.

I will continue to attend and take out a membership, something I would have never done without the Bolsover Wellness Programme".

/ Case Study - Active Lunchtimes

On 27th September coaches from the Physical Activity and Sports Development Team at BDC delivered the PlayMaker award for 13 Year five pupils at Whaley Thorns Primary School. Completing the award helps pupils to gain and develop their confidence whilst supporting and delivering sessions before they reach their final year of primary school. Gaining the confidence and experience during Year 5 enables them to be better leaders, aiding their transition through the leadership pathway.

The overall aim of the award is to develop children's leadership skills so they are equipped to be "playmakers" (another term for a leader) at their school. The PlayMaker award is a progression from Mini Leader training which gives children some knowledge of how to run a session to their peers at lunchtimes. The children who have the potential to develop their skills further are handpicked to attend the PlayMaker award. The

course is developed in line with the PACE principle (Participants, Area, Communication and Equipment). Each aspect of the PACE principle is covered providing participants with an insight into what a leader or coach has to think about, whilst also giving children an understanding on what they will have to deal with when they are leading.

It was great to see all children's confidence levels improve. Throughout the day children were put on the spot and asked to deliver a particular game/activity in order to help improve their confidence and develop

their skills. At the end of the day children are asked and encouraged to support and deliver some lunchtime sessions alongside the school's Play Leader. We also leave a series of documents with the PE lead which contain a number of session plans that children can use as well as a number of tutor resources the PE lead can utilise should they wish to do any additional training with the playmakers.

/ Case Study - Active Confidence

JH started his involvement through the Active Confidence programme in the 1st Quarter of the year. Being overweight, he did not engage with the Activity Group although he did start engaging with some of the short walks (approx. 2hrs.) that the team at Pleasley Vale Outdoor Activity Centre support on Wednesday afternoons. Now having been motivated to go to slimming classes, JH has lost over 10 stone in

weight. As a result he has started coming out with the Thursday Self Help activity group. He has commented on how he has surprised himself with what he can now manage to do. Most recently he completed a 7mile walk from Holmebrook Park to Linacre Reservoirs and back.

/ Working Together for Older People

Social impact measurement: £83,656

- ✓ Member of a Social Group £25,469 (HACT)
- ✓ Regular Volunteering £58,187 (HACT)
- ✓ Investment: £8,633
- ✓ SROI £1 – £9.69

Working Together for Older People is led by Age Concern to build local capacity and infrastructure to engage/ involve older, more vulnerable and/ or isolated adults in community and social activities and operates in the northern part of Bolsover district i.e. Barlborough, Bolsover, Clowne, Creswell, Elmtun, Hodthorpe and Whitwell.

Outputs/outcomes achieved between April and September 2019:

- ✓ 55 beneficiaries
- ✓ 19 regular volunteers
- ✓ 908 volunteer hours
- ✓ 17 members of a social group
- ✓ 14 partnerships established
- ✓ 10 individuals with increased levels of activity

Age Concern have been successful in securing funding from the National Lottery Community Fund for their ACTIVE AGE project which has enabled the appointment of an outreach worker to help older people to become less socially isolated. In instances where older people because of their illness or infirmity are unable to attend clubs and groups the new worker will encourage community clubs and groups to maintain contact. Some of the functionality of the WTFOP project could be integrated with this project providing a route for sustainability and ongoing impact.

/ Case Study

Despite dreadful weather, everyone thoroughly enjoyed the Working Together for Older People trip to the Wartime Weekend at Clumber Park. A soggy walk up to the Walled Garden and tasty lunch in the Garden Tea House was followed by a stroll to the Turning Yard where a break in the clouds allowed us to see some 40's dancing. The marquee provided shelter when the rain returned but with Johnny Victory entertaining it was far from gloomy.

Dot and Brenda both have mobility problems so trips out are difficult for them -

Dot: "I've had such a lovely day out, I

didn't care about the rain. It was all so easy because scooters were arranged for us and brought right up to the bus when we arrived"

Brenda: "The volunteers on these trips are always so kind and helpful - it makes you feel really special and gives you a boost"

Mother and daughter Beryl and Jenny had been really looking forward to their day out and they weren't disappointed!

Jenny "Did you see Johnny Victory? He was brilliant! I wish we could stay longer because he's on again later"

Beryl "Oh I have enjoyed it. Thank you so much for bringing us"

/ Raising Aspirations

'Raising Aspirations' is Bolsover Partnership's flagship project. During 2009 - 2014 it achieved strong recognition for its role in increasing progressions at post 16 and raising aspirations of more vulnerable groups. Since 2015, Public Health Locality Funding has been invested in the programme and following a Derbyshire County Council Cabinet meeting in September 2018, it was agreed that £231,000 of the Localities and Place Based investment would be used to provide a two year extension to the Bolsover

Partnership commissioned 'Raising Aspirations' programme delivered across the county by Derbyshire Education Business Partnership for academic years 2018/19 and 2019/20.

The last 6 months saw the end of the 18/19 academic year, and the start of the 19/20 academic year. In 2018/19, the three schools supported in Bolsover district were Frederick Gent, Heritage High and Tibshelf Community Schools. The outputs below show the planned and actual outputs for the 2018/19 academic year.

School	TARGET					ACTUAL				
	Yr 10	Yr 11	Universal delivery	Targeted programme	Total yp	Yr 10	Yr 11	Universal delivery	Targeted programme	Total yp
Frederick Gent School	12	0	165	24 - Yr 6 Transition 'Move On, Move Up'	201	0	14	160	22	196
Tibshelf Community School	12	0	165		177	10	0	206		216
Heritage High School	0	0	0	12 - Yr 8 'Shine'	12				9	9
Total	24	0	330	36	390	10	14	366	31	421

/Impact

The Social Return on Investment (SROI) captured across the whole RA programme has been positive with every £1 spent, showing a £4.68 value.

The Year 8 building resilience initiative (Shine), provides targeted support for key stage 3 learners, who are experiencing difficulties that are impacting their educational experience and causing low level mental health issues. This programme was delivered at Heritage High School and produced a social return on investment of £21.72 for every £1 spent! This measurement was derived from the Shortened Warwick Edinburgh Mental Wellbeing Survey (SWEMWBS) which has been developed by HACT to enable the

monitoring of mental wellbeing in the general population. This return provides a great indication of the impact that the programme is having on the students who receive the support.

The Primary transition programme (Move On, Move Up) worked with the two primary schools in the Frederick Gent secondary cluster for their Year 6 by identifying learners for whom the move to secondary education was causing anxiety. To analyse the SROI of this initiative, students are asked to assess against the common areas that create anxiety for Year 6.

Below is the change expressed by the two schools:

Transition concerns - Glebe and Kirkstead

2019/20 academic year delivery commenced in three schools in Bolsover; these being:

- ✓ Frederick Gent School - core RA + universal delivery, and Year 6 'Move On, Move Up' - expected to benefit 282 students in total
- ✓ Heritage High School - Year 8 Developing Resilience programme - expected to benefit a cohort of 12 students
- ✓ Stubbin Wood School - core RA

delivery of 12 Special Educational Needs and Disabilities (SEND) students

One notable change for the current academic year has been for the RA programme to support Stubbin Wood Special School (previously Tibshelf School had been supported through RA). The differentiated approach taken for SEND learners enables, not only the young people themselves, but their support network, to recognise potential and raise the expectations had for learners with additional needs.

/ Case Study - Frederick Gent Community School

DEBP delivered a full year mock interview morning for students providing 16 employers including support from the STEM Ambassadors network.

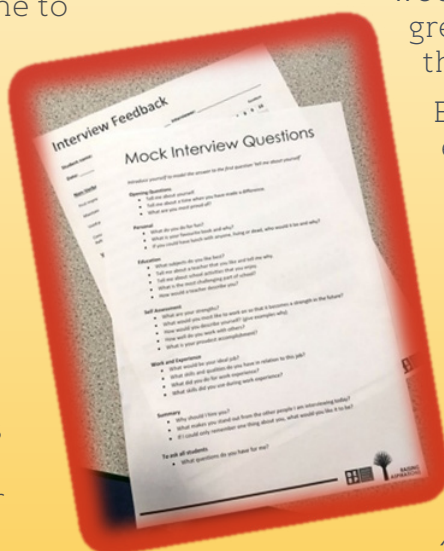

112 students were given a one to one 20 minute interview. Employers gave students both immediate verbal feedback and then wrote feedback sheets that were given to students as a reminder of the positives and possible actions to work on for future interviews. DEBP provides employers with example questions but asks employers to utilise any that they would use in their own processes to make the interviews as authentic as possible.

The aim of the session was to give students an experience of a professional interview. For many

students this was the first time they had an interaction with an employer. Students were all given interview slots and had to arrive on time and were held in a 'reception' area, the employers would then go to meet and greet the students leading them to the interview.

Employer feedback from the event was how impressive students were able to answer questions as they had not been given any detailed preparation for the day. Students were impeccable in the way they approached the event with their professional attitudes and detailed answers.

"Thank you so much for organising and being involved in today. The feedback has been great and the students all really enjoyed it!" - Tracie Jenkinson School Raising Aspirations lead.

/I-Venture

The 'I-Venture' project aims to offer opportunities for learning and personal growth to young people from Bolsover district. Delivered in partnership with local schools, the programme aims to raise the aspirations of young people and develop skills and attributes around confidence, communication, planning, team working and increased global and cultural awareness.

In July 2018, students from schools across Bolsover district were given the opportunity to apply to be part of the I-Venture 2019 programme which culminates in spending ten days in South Africa under canvas (no hotels in sight) and travelling (mostly on foot) to a variety of locations to undertake their international citizenship programme that involves:

- ✓ delivering essential first aid training to the local communities
- ✓ working with a local school and an orphanage
- ✓ working alongside lead ecologists to study the wildlife population
- ✓ conducting an environmental impact study
- ✓ learning about other cultures

The young people that were selected, following an application and selection process, were all from Years 9 and 10 and aged between 13-14 years. The schools that they represent are Frederick Gent School, Shirebrook Academy, Stubbin Wood Special Educational Needs School and Tibshelf Community School.

As the departure for the expedition phase rapidly approaches (Monday 21st October) the whole group (19 young people in total) has attended their final training and preparation days including:

- ✓ Saturday 6th September - First Aid and Community Health training

- ✓ Sunday 7th September - Final team building and risk management training
- ✓ Saturday 21st September - Mock departure and final briefing for students and parents/carers. 2-hour presentation delivered by Angus Wingfield, Expedition Leader, Dr Steven Lloyd and Clare Talati providing a final rules and responsibilities overview and communications protocol.

All the participants were signed off as being ready for the expedition phase following the final date. However, following consultation with one young person and her family on 06/09/19, further investigation was required around recent medical symptoms. Unfortunately, due to the undiagnosed cause of the symptoms and the remote location of the expedition, the decision was made that the young person would be unable to attend the expedition phase due to increased risk. This was understandably a very hard, but necessary decision, and one that the family appreciated had to be made. The aim is to include this exemplary member of the team in a later programme, when the medical situation has stabilised.

Where final issues have presented with other participants, Claire Bergmann, pastoral support on the programme, has been conducting home visits and providing extensive support to families in particular need. This has ensured that the participants at risk of not making it through the final phase, have stabilised and can focus on the trip of a lifetime. There has also been extensive work to ensure that the health and safety of the expedition is all ready for approval from the schools and local authority. This process will be signed off with full authorisation week commencing the 7th October.

Next stop - South Africa!

/ Extreme Sports Academy

Social impact measurement: £48,655

- ✓ General Training for Job £42,614 (HACT)
- ✓ Frequent Moderate Exercise £6,041 (HACT)
- ✓ Investment: £15,416
- ✓ SROI £1 – £3.16

The Extreme Sports Academy volunteering scheme started in September 2018 and has been working with 14 volunteers. During the period April to September 2019, the volunteers have delivered 485 volunteering hours, and been involved in 44 Extreme Sports sessions – this involves setting-up, running the sessions and packing away.

The Level 2 Sports Leadership Course for the volunteers took place on the 23rd/24th/30th/31st March 2019. 11 volunteers completed their training and are now in the process of gaining work experience with Extreme Wheels Roadshows to complete their volunteering hours so they can gain their qualification. The Academy also has 4 newly qualified Sports Leaders, who are awaiting their Certificates, and

13 of the volunteers have achieved their Derbyshire Passport.

July to September was Extreme Wheels busiest time, so volunteering opportunities were at their greatest, with a massive selection of varied events and activities. Although the academy had 11 volunteers attend at least a selection of events, a pattern started to emerge, with six young people regularly attending community activities in the daytime and evening, large gala events within and outside the district and a number of skate festivals.

During the day at Corby Skate Park, 21st Sept 2019, staff members had a good conversation with the volunteers about a number of topics, in which they all provided positive input. A subject which generated quite a bit of discussion was about how their volunteering time could eventually turn into paid employment and what they are doing now could open doors for other opportunities including different career paths, further education, employment and other volunteering schemes.

/ Case Study

The Extreme Sports Team have been in contact with a young person for over 4 years now, and have seen him develop and mature over this period, to the point where he is showing real potential of gaining employment with the team. Initial contact with this young person was when he used to attend Extreme Wheels Roadshows and participate, but he was very cheeky, not obeying health and safety rules and basically causing issues and concerns. He was also known to the police and around the local community for anti-social behaviour.

Over this period the team at Extreme Sports have got to know him and when the initial idea of volunteering came about he was keen to be part of it. The Extreme Sports team were also happy for him to be involved, because of the motivation he was now showing. His behaviour has greatly improved, and he now regularly attends sessions, making himself available for training days and completing available qualifications.

/ Bolsover Countryside Partnership (BCP)

Social impact measurement: £11,256

- ✓ Regular Volunteering £11,256 (HACT)
- ✓ Investment: £3,250
- ✓ SROI £1 – £3.46

Using the HACT (Housing Associations' Charitable Trust) model to evaluate social return on investment, the BCP Archaeological Way Access Volunteers volunteering provision provided a return of £11,256. However this does not take account of any of the strategic, infrastructure or funding work, which is at the heart of BCP's delivery. Other useful information to put the social return on investment into context for the BCP includes information recently

highlighted in the Land Trust study which identified:

- ✓ that for every £1 spent on site management of its greenspaces, another £30.30 was generated in health benefits and £23.30 in reduced crime and anti-social behaviour
- ✓ people valued greenspace at 2.5 times the cost of maintenance
- ✓ there was an average uplift of £8,670 in the value of house prices within 500m of well managed greenspace
- ✓ on average, an additional £38,000 was generated by local small businesses.

Visit. Sleep. Cycle. Repeat (VSCR)

- A bid to the Rural Development Programme for England (RDPE) was submitted on 13th September for £404,000. If successful, the bid will deliver 5.7km of new and improved cycling trails as part of the development of the Pleasley Visitor Hub, and will include the following projects:

- ✓ AW12b - Reinstate 788m Forge Lane (Pleasley BW16)
- ✓ AW12c - 480m new section of trail between Forge Lane and Wood Lane

- ✓ Rowthorne Trail - Reinstate 2,240m of the trail to accommodate cycling
- ✓ Pleasley Pit Circular Route - upgrade 590m of desire lines around the country park to create a circular waling and cycling route
- ✓ Longhedge Lane - Reinstate 1,065m of bridleway (Pleasley BW13)
- ✓ Dale Lane - Reinstate 577m of concessionary bridleway (Ault Hucknall FP29)

The map, below, highlights the six trails included in the programme.

Volunteering - delivered a total of 150 hours of volunteering work by 4 volunteers, who installed a new bench, carried out cutbacks on a number of sites and repaired a gate.

Funding - Secured £97,000 of BRRP funding that will pay for the following projects:

- ✓ Pleasley visitor hub feasibility study
- ✓ Pleasley pit Camping Pods planning and delivery model feasibility study
- ✓ VSCR PR, social media and marketing plan
- ✓ Pleasley Pit, Grassmoor and Archaeological Way accessibility audits

/Traineeship and Apprenticeship Programme

The Council's Traineeship and Apprenticeship programme, aimed predominantly at 16 - 17 year olds, commenced in April 2014 as a legacy to the flagship Apprenticeship programme developed when the Council was in receipt of Working Neighbourhoods Fund.

Joe started his apprenticeship with the Council at the age of 16. He had always known that he wanted to pursue a career in the leisure sector and had been involved in a range of sports from an early age, specifically boxing having been a member of a local club. At school he won Sports Personality Award on numerous occasions. He achieved 3+ grades in the majority of his GCSE's and was keen to find an apprenticeship to enable him to continue his studying whilst working and gaining practical work experience in the sector.

Joe successfully gained an apprenticeship at the Council's Go Active Leisure Facility

where he was employed as an Apprentice Leisure Attendant for 12 months. He achieved an NVQ Level 2 Exercise and Fitness along with the RLSS Pool Lifeguard qualification. During his time as an apprentice he has undertaken and supported in activities such as Bounce, Aqua Fit, Junior Gym Programmes, Studio Circuits and Max 10. Both colleagues and customers have commented that he is growing in confidence and that has become an asset to the team.

Joe said "It is such a great environment to work in, the people are really friendly and I'm learning a lot from everyone and my mentor Shannon is extremely supportive"

Joe has recently successfully gained permanent employment with the Council as a Pool Lifeguard. His Line Manager David Hall said "Joe has been one of the most exceptional apprentices they have had to date"

/Talent Match and Legacy 6

Although the Talent Match programme finished in December 2018, the BIG Lottery approved a proposal from Sheffield Futures to utilise underspend from years 1-4 for a 15 month targeted programme which commenced January 2019. Although this extension is for a much smaller and more targeted programme, clients that were still on the Talent Match programme, and had potential to progress into employment, have continued to be provided with intensive support. The results for the first 9 months of the programme are shown below:

Outcome	Target Jan-Sep 19	Actual Jan-Sep 19	% target achieved
Clients engaged	20	20	100%
Clients participating in pre-workplace activity	15	15	100%
Clients participating in workplace activity	3	3	100%
Clients entering paid employment	5	6	120%
Clients sustaining employment	0	3	300%
Clients developing well-being and/or employability skills	20	11	41%
Clients improving capacity to manage own well-being	10	15	150%
Clients improving proximity to labour market	0	12	>100%

/ Business Growth Fund

Bolsover District Council has re-launched its Business Growth Fund to help support business growth and create jobs across the area.

£200,000 has been allocated and is split into two schemes that can provide firms with grants of up to £500 (start-up) and £10,000 (business growth) towards project costs.

The investment will help businesses across Bolsover District and has been specifically designed to support them with grants to help grow their business and create local jobs.

Bolsover District Council's Cabinet Member for Economic Development Councillor Liz Smyth said, "The majority of our economy is made up of small and medium sized businesses, so they are the lifeblood of our economy.

"We have a great entrepreneurial spirit in the area. People and businesses coming up with great ideas, new innovation and willingness to succeed, so it's important

that we support them as much as possible.

"That is why we have re-launched the Business Growth Fund to allow us to support more businesses so that they can invest, grow and create the good quality well-paid jobs the people of Bolsover District deserve."

The funding can be used for a variety of projects, that support businesses to:

- ✓ Expand/grow
- ✓ Diversify into new markets / Exporting
- ✓ Relocate to premises within the district
- ✓ Attract new investment
- ✓ Become more carbon efficient
- ✓ Improve productivity
- ✓ Develop the local supply chain

Applications for the funding are open and businesses should speak to the Council's Economic Growth team to find out more information on the application process and eligibility criteria on 01246 242512 or email info@businessbolsover.com

Business Growth Fund

**Bolsover District Council's Business Growth Fund (BGF)
re-opens in October 2019.**

We want to support businesses within our district to grow and have allocated a further £200,000 to the BGF. 2 types of grants are available:

Business Growth Grants

Are you an established business (generally 2+ years trading) located in Bolsover District with plans to grow and employ more staff?

Up to £10,000 may be available to help you grow, diversify, export, relocate, become more carbon efficient, improve productivity or develop your local supply chain.

Start-Up Grants

Are you planning to start a new business, or in your first two years of trading?

Small grants of up to £500 are available to help kickstart your business.

For more information on the application process and eligibility criteria, please contact the Economic Development Team on:

Email: info@businessbolsover.com Tel: **01246 242512**

/Controlling Migration Fund Building Resilience Programme

/Understanding the issues

Sports Direct as an employment opportunity at the warehouse is still the key factor attracting immigrants to the NG20 area. There is a common belief that low levels of English is not a barrier to find employment in Sports Direct. The two largest employment agencies operating in the NG20 area confirm that the two main migrant nationalities employed in the NG20 area are Polish and Romanian.

Feedback that the Building Resilience Programme Officer and Multicultural Adviser receive from communities is that the pace of migration had slowed down as UK is no longer perceived as a great place to work (lower value of GBP, uncertainty about rights after Brexit). The number of migrants who have decided to return to their home country has also increased recently.

Nevertheless, the annual number of applications for National Insurance Number completed by residents of the NG20 area stays at similar levels as the previous two years (165 – 2017/18; 175 – 2018/2019).

Since the massive influx of migrants from the EU took place (2015-2016), the majority of British local residents have accepted the fact that Eastern Europeans have

become members of the NG20 community. Links created between British, Polish and Romanian community groups help to maintain community cohesion by including more people.

Due to the significant percentage of migrants living in the area, there is still a risk of tensions between different communities. Working closely with community groups, and the inclusion of migrants in the work of the local Safer Neighbourhood Team, helps to reduce perceptions by residents of issues motivated by hate.

The table below shows significant reductions in Anti-Social Behaviour (ASB) in three of the five wards in Shirebrook when comparing the last 12 month period ending September 2019, with the previous 12 month period ending September 2018. Only small increases in ASB have been seen in two of the five wards.

Lack of English proficiency is still the main challenge preventing people from using services, socialising and integrating. This is also the main reason for assistance being asked of members of the Project Team.

Ward	Oct-17	Nov-17	Dec-17	Jan-18	Feb-18	Mar-18	Apr-18	May-18	Jun-18	Jul-18	Aug-18	Sep-18	12 Month Total	Oct-18	Nov-18	Dec-18	Jan-19	Feb-19	Mar-19	Apr-19	May-19	Jun-19	Jul-19	Aug-19	Sep-19	12 Month Total	Difference	% Difference

/Project Management

During the current reporting period, Sioned Dolan (Project Community Development Worker) left the team after securing a permanent position at North East Derbyshire District Council. Despite leaving the project early, she managed to complete all tasks and achieve all targets relating to her work (volunteering element, supporting local communities).

In line with the MHCLG's approval to extend the Building Resilience Programme until the end of September 2019 (due to the late start of several interventions), five strands have now finalised their interventions (A1 - Community Resilience-School; A2 - Community Resilience-Community; E1 - Social Norms & UK Laws-Street Scene; E2 - Social Norms & UK Laws-Vehicles; G1 - Healthy Workforce Programme. Four interventions have been extended for an additional 6 months (B1 - Market Square Enlivenment, C1 - Migrant Community Access, D1 - Improve Access & Quality of Private Sector Housing, F1 - Additional GP Resources.

The process of final programme evaluation commenced in September 2019, with data collection, interviews, and public consultations. The final report is expected to be ready in December 2019

and is being delivered by GBA Limited.

The Project Team continue to use the premises at Shirebrook Market Square (96 Market Street, Shirebrook) to promote the Programme and services available locally. The Project Show Room is also used as a contact point for business owners involved in the 'Shutter Art' project (05/08/19 - Market Shops Enlivenment Open Day) and equally as a point for local residents where information can be collected about local activities, volunteering or events. The space is used (no fee) for 'Migrant Help' charity organisation which have been contracted

to provide support to vulnerable people with EU Settlement Status Scheme. On a daily basis the Project Worker and NG20 Multicultural Adviser provide support, signposting people to adequate services or helping with language barrier.

/Project Delivery Progress

The Programme covers interventions organised into nine strands. The key approach is a multi-agency collaboration, executed by multiple complementary projects. Below is an update on each strands' goals and progress to September 2019.

Community Resilience- Shirebrook Academy (A1)

Planned:

- ✓ Additional English language capacity to improve educational outcomes and to improve youth activities to foster cohesion.

Actual:

- ✓ English lessons for adults completed June 2019 - 4 hours per week, cohort of approx. 20 students attended
- ✓ Well qualified Polish speaking EAL Teaching Assistant employed October 2018 to Sept 2019 to replace previous leaver. Contributed to EAL support in lessons and family liaison
- ✓ Range of community activities undertaken including Market Square Shutter Project, development of the Shirebrook APP and Yong Voices (Youth Parliament) as well as charity fund raising events for a range of charities including MacMillan, Bobby Moore Foundation, British Legion.

Indicators which demonstrate the impact of this intervention work are the GCSE attainment levels for EAL (English as an Additional Language) students as opposed to non EAL students as shown below:

Measure	EAL	Non EAL
Attainment 8 (Average points score across 8 subjects)	55	44
Grade 5+ in both Eng & Maths	63	39
Grade 4+ in both Eng & Maths	88	62
Grade 5+ Eng	75	49
Grade 5+ Maths	75	53
Grade 4+ Eng	88	71
Grade 4+ Maths	88	72
Ave Grade Eng	5.13	4.52
Ave Grade Maths	5.63	4.52

Community Resilience - Bolsover Partnership Team (A2)

Planned:

- ✓ Volunteering opportunities and development capacity to enable local groups to integrate.

Actual:

- ✓ Project Team organised two very successful community events.
 - » Community Heritage Day that took place in May. In this initiative, different communities have been showcasing their culture, traditions, important and interesting facts about their countries. This involved the Polish Community, Romanian Community and local, Shirebrook, British Community. There were artists singing and dancing in different languages and the preparation of traditional food.
 - » Second event took place in July at Rainbow Park in Shirebrook. There were a lot of

activities for all members of the community as well as free BBQ and many stalls with handmade goods. Attendees were encouraged during the event to join local community groups.

- ✓ Project officer continues to support the development of The Polish Community Group in Shirebrook. As a result, the group has been successful in securing 2 grants, one from Derbyshire Community Action and the second from Polish Consulate in Manchester.
- ✓ Project officer and NG20 Multicultural Advisor have been busy with supporting local community in applying for EU Settled Status and another major issue is application for Universal Credit.
- ✓ Our regular event: Let's sing along club is very popular and we have noticed a significant increase in the number of people (mix of British and Polish) that are attending our club.
- ✓ Finally, 43 local regular volunteers have been confirmed (Volunteer Programme, Extreme Sports Academy) completing 969.5 hours of volunteering in favour of local communities.

Market Square Enlivenment (B1)

Planned:

- ✓ Upgrade shop fronts and create an inviting social space

Actual:

- ✓ Final designs for shutter artwork were received from artist Peter Massey in July.
- ✓ An open day was held on 5th August 2019, where the final designs and the stories behind each one were put on display.
- ✓ Junction Arts released the first part of the film for the Market Shops Enlivenment project and this was circulated to partners and stakeholders on 7th August 2019.
- ✓ Between the open day at the beginning of August and end September 2019 a total of 27 retailers had signed up to the project.
- ✓ 6 shop fronts have benefitted from physical improvements to date - 5 through the shop front grants scheme and 1 demonstrator property. 4 have been completed and are in the final stages of claiming the grant payment. One other and the demonstrator property should be completed by the end of October 2019. There have been significant delays and additional costs to complete the demonstrator due to unforeseen work to make good the shop front and fascia. Original expected completion date was end July 2019 (3 month delay).
- ✓ Shutter Media began installation of shutter artworks on site in August 2019. 16 shutter designs have been signed off and are in various stages of prep/completion - these should all be completed by end October 2019 (weather permitting). 6 of these 16 have already been finished to date (two have also received new signage).

Migrant Community Access (C1)

Planned:

- ✓ Additional Contact Centre resource capacity.

Actual:

- ✓ The drop in sessions arranged at Shirebrook Contact Centre (with assistance from a Polish speaking adviser) have continued to be popular with increased attendance levels throughout the NG20 area. From the beginning of September a decision was made to increase the sessions from fortnightly to be able to accommodate demand.
- ✓ The Specialist Customer Advisor continues to network throughout the community, building relations with the migrant communities
- ✓ The Specialist Customer Advisor continues to support the Job Centre with Universal Credit claimants.
- ✓ September also saw the relocation of Shirebrook Contact Centre to the new shared accommodation within Shirebrook Town Council where improvements to joint working and service provision to the community are envisaged.

/ Case Study

Case study created by Josie Woods, Specialist Customer Advisor at Shirebrook Contact Centre.

I had a man who came to see me at the Freedom Community Project and the Job Centre. He had lost his job at Sports Direct and he had a family to support, but could not get Universal Credit because his documents were being held by Police until he attended court in London in September. He had not received any money for several months and had come to the Drop in Session previously to sort out a Discretionary Housing Payment for his family.

I arranged for a family food voucher. His wife had managed to secure employment for 14 hrs per week. I asked him if he would show me his court papers, it appeared the court in London was the one that extradites them back to their own country. It also became apparent that they owed arrears on their rent and the landlord was due to take them to court for eviction. He explained that he was in this position due to owing someone in Poland £300, but the court he was appearing at seemed to deal with very serious cases.

Due to the man not having his original ID I was struggling to sort out his Universal Credit claim, as I was trying to get the claim back dated so that this would sort out his rent arrears. I rang Derbyshire Police in Ripley and spoke to someone who deals with Eastern Europeans in Derbyshire. She agreed that if he attended the Police Station in Chesterfield he could collect his ID, she also assured me that what he was saying about the £300 was probably correct, and in some cases it could just be a loaf of bread, as this is the way the law works in their country.

The man has collected his ID and his Universal Credit has now been back dated from when he first applied. Housing have now stopped Court proceedings for the rent arrears, and I have given him a telephone number of an Agency with job vacancies. The man has now been successful in obtaining full time employment. He has contacted the Authority to acknowledge how grateful he was for all the help given to him.

Improve Access & Quality of Private Sector Housing (D1)

Planned:

- ✓ Resource to tackle immediate safety and environmental issues, take enforcement action and raise awareness of standards amongst migrant community.

Actual:

- ✓ In June, July and August 2019, three of the experienced Inspection Officers left the Authority (and the Project) to take up new positions with new employers.
- ✓ In September 2019, 3 new staff members were recruited (to the Joint EH Service), who are keen to undertake NG20 Property inspections under the same arrangements of a separate inspection contract in their own time.
- ✓ The part-time Technical Support Assistant has continued to create, update and maintain the risk based privately rented property inspection database.
- ✓ Information regarding properties potentially being used as HMOs continues to be received from a local employer in the NG20 area. Appropriate intelligence continues to be shared amongst the neighbouring local authorities (Mansfield & Bassetlaw DCs), Police, Fire Service, Gangmasters and Labour Abuse Authority (GLAA).
- ✓ Based on the outcomes of the current NG20 Project i.e. an increased number of HMOs requiring to be licensed, we were successful in receiving Rogue Landlords funding to produce an HMO electronic database to hold all information relating to HMO's and to streamline and enhance our proactive approach to HMO enforcement. The HMO Database Project has been completed (final report delivered July 2019) and the electronic HMO system is now being used within the Joint Environmental Health Service for all current and future recording of HMO licensing applications and data.
- ✓ 1115 properties inspected. To meet the designed target (1500) Strand Lead asked for an extension until the end of March 2020.

Social Norms & UK Laws - Street Scene (E1)

Planned:

- ✓ Public realm improvements, nudge theory and enforcement action.

Actual:

- ✓ Street Scene had purchased 14 new litter bins to increase the number in the Market Place but then had

to just replace the old bins (10x) because of the delays on the re-development planned by Shirebrook Town Council.

- ✓ The final shape of an informational board for HMO's had been agreed. Boards will be installed at the properties until the end of October.
- ✓ 4 more bins have been installed at locations suggested by Shirebrook Town Council.

ON CORNER OF
FROM ADJACENT
TO CARPARK DRILL
ACCESS FROM
POLISH SHOP

Social Norms & UK Laws - Vehicles (E2)

Planned:

- ✓ Vehicle checks, driving law awareness raising and migrant recruitment within the Police.

Actual:

- ✓ Zaneta Pieprzak continues full time employment as a Police Community Support Officer. Zaneta has been an incredibly valuable asset to my team and the fact that she is Polish means that my team can offer a higher level of service when dealing with Polish victims of crime.
- ✓ On 10th June Adrian Portianow attended his attestation ceremony, meaning that he is now a fully qualified Police Officer with warranted powers. Great news for the project is the fact that Adrian will be patrolling Shirebrook as well as other areas on Bolsover and North East section.
- ✓ To improve cooperation with local communities in terms of reporting crimes, we designed, printed and distributed a leaflet explaining ways to communicate with Police forces in UK (in English, Polish and Romanian).
- ✓ Shirebrook Safer Neighbourhood Team have now delivered road safety inputs to all Shirebrook Primary Schools.
- ✓ Mobile ANPR camera continues to get great results.

/ Case Study

Adrian Portianow

On 3rd October 2019 Adrian attended his attestation ceremony at Police HQ. I was honoured that he invited me as one of his guests. Adrian is a great Shirebrook success story. Since a very young age he wanted to become a police officer. He moved from Poland to Shirebrook when he was only a few years old. In recent years Adrian has successfully done various jobs but nothing made him waiver from chasing his dream of becoming a police officer. Adrian originally joined my team a couple of years ago as a Police Support Volunteer (PSV). He then trained to become a Special Police Constable (SC) and was successful. Again he performed this role in a voluntary capacity on my team. On 07/10/19 Adrian leaves his training and will start his first day as a fully warranted and full time paid Police Officer. He could have been posted to anywhere in Derbyshire so I feel that Shirebrook is incredibly fortunate to be one of the towns that Adrian will police. Like Zaneta Pieprzak, Adrian has allowed my team to improve the level of service offered to the community of Shirebrook.

Additional GP Resources (F1)

Planned:

- ✓ Resource to increase capacity and proactively register new patients, limiting emergencies and double-appointments.

Actual:

- ✓ Advanced Nurse Practitioner appointed, offering additional minor illness appointments over 4.5/5.5hr sessions x 4 sessions per week.
- ✓ Receptionist offered a Community Interpreting Course to become an additional support to the medical staff in dealing with language barrier.
- ✓ Surgery staff is supported by NG20 Multicultural Adviser in tackling the language barrier and to support efforts to decrease the number of double appointments.
- ✓ The surgery has not been able to achieve a reduction in the number of double appointments. This is mainly due to fact that we have increased the number of registrations among migrant communities (492 new registrations = twice what was targeted).

Healthy Workforce Programme (G1)

Planned:

- ✓ Major employer engaged with the Healthy Workforce Programme.

Actual:

- ✓ The Healthy Workplace Derbyshire (HWD) strand has met its KPI's and outcomes with the exception of engaging 20 workplaces (13 achieved).
- ✓ The Healthy Workplace Programme has been introduced to the following local employers: Derbyshire Unemployed Workers Centre; Fitted Home; Lighthouse Homes; Rhubarb Farm; Shirebrook Academy; Shirebrook Town Council; Shirevale Resource Centre; Sports Direct; Stubbin Wood Nursery; Stubbin Wood School; The Tangent Business Hub; Westville Ltd; Whaley Thorns SSEN
- ✓ 326 engagements in total, which included:
 - » 9 Body MOT/Health and Wellbeing MOT Consultations
 - » 17 employees received mental health training
 - » 21 employees attended Weight Management courses
 - » 15 employees received Alcohol Awareness training
 - » 160 employees (Smoking Cessation).
- ✓ Many of the workplaces engaged in NG20 have appointed a Workplace Health Champion (WHC) within their workplace.

"From the outset, the Healthy Workplaces Team has been instrumental in supporting Sports Direct in the design and implementation of their Wellbeing strategy across our Head Office in Shirebrook. The Healthy Workplaces Team has facilitated specific programmes such as a Stop Smoking service for warehouse workers. Moreover, the Healthy Workplaces Team has always been on-hand to offer guidance to myself regarding the support services available in the wider community that I can use to refer workers to in order to help them improve their own health and wellbeing. I look forward to a continued relationship with the Healthy Workplaces Team as we look forward to increasing the scope of our wellbeing provision in the future."

- **Alex Sheldon, Workplace Wellbeing Coordinator, Sports Direct**

"It has been a pleasure working with Penny over the last few months. Her help has been invaluable and we are so grateful that Derbyshire Council have given us the opportunity to work with them on this project. We believe the health needs assessments have been a great help to us in ascertaining the needs of our workforce and we are enthusiastic to take this further. We have already set our dates for Body MOT's and tomorrow will be meeting with Jo Bailey to discuss Mental Awareness. Again thank you to Penny and her team for giving us this opportunity."

- **Lynne Hutchinson, Office Manager, Westville Ltd**

/B@Home Employment and Skills Report

In July 2015, Bolsover District Council and Robert Woodheads Limited signed a partnership agreement to work collaboratively and maximise social value outcomes following Woodhead's successful tender for a 4 year framework agreement to build a minimum of 100 new houses. The update below has been provided by Woodheads and covers the period June 2019 - October 2019.

JULY 2019

Shirebrook Academy Industry Day

On **8th July 2019**, we supported **Shirebrook Academy** With their Industry Day. 2 Woodhead employees, including one of our Apprentices delivered a Maths Challenge to a number of Groups, which involved teaching students on how maths is used in the Construction Industry. The students were each given plans of a house and were asked to work out the area of the house and how many bricks and blocks it would take to build the house.

As a result of this task, we have been approached to see if we would be willing to develop this challenge into a lesson plan which could be taught by teachers in schools across the district.

In total **39 students** were supported.

AUGUST 2019

Whitwell Primary School Play Scheme

On **7th August 2019** we supported **Whitwell Primary School's** Play Scheme which runs through the summer holidays.

Matt Bust attended along with 2 of Woodhead's Technical Apprentices, Harvey Gregory and James Bracegirdle. We delivered a number of sessions throughout the day in which the students were tasked with building the tallest standing tower out of paper and sellotape.

In total **60 students** were supported.

OCTOBER 2019

Year 10 & 11 Careers Evening, Shirebrook Academy

On **15th October 2019** we attended **Shirebrook Academy's** Careers Evening in which Years 10 & 11 students were in attendance accompanied by their parents. It was an opportunity for the students to find out about opportunities available to them once they leave school. We took along a stand and some promotional material and spoke about opportunities for careers in construction.

In total **150 students** were supported.

Post 16 Careers Day, The Bolsover School

On **23rd October 2019** we attended The **Bolsover** School's Post 16 Careers Day. The event was aimed at Year 11 students who are due to finish school in 2020. A number of companies and colleges were in attendance, promoting the different opportunities available to students for when they finish Year 11.

In total **142 students** were supported.

Summary of Activities:

Description of Activity	School Supported	Date	No. of Students Engaged
Year 10 Industry Day	Shirebrook Academy	08/07/19	39
Play Scheme	Whitwell Primary School	07/08/19	60
Year 10 & 11 Careers Evening	Shirebrook Academy	15/10/19	150
Post 16 Careers Day	The Bolsover School	23/10/19	142

CSR Accreditation

We recently applied for National CSR Accreditation which independently assessed our approach to social value, evaluating our outputs such as local spend, apprentices and training.

We achieved **CSR Gold** status, the highest possible accreditation, recording the highest score ever awarded by the scheme of **92%**.

A significant element of our application, centred on the highly successful work we have delivered with Bolsover District Council.

Meet the Buyer Event

On **29th May 2019** we hosted our 3rd B@HOME Meet the Buyer event at the Tangent in Shirebrook.

The event was an opportunity for everyone who has been involved in the B@HOME Framework, including supply chain, client and staff to celebrate

what has been achieved and the future pipeline of work.

We also launched the B@HOME Monopoly Board which has been developed to showcase the achievements of the framework.

I-Venture

Working closely with The Bolsover Partnership Team, we took part in a number of fundraising initiatives in order to raise funds for I-Venture, an expedition to South Africa in which students from 4 schools across Bolsover District will take part.

The fundraising included a 5 a side football tournament which included 2 teams from Woodhead's and a number of sub-contractors who have worked on the B@HOME Framework.

A 'Try Scuba Diving' event also took part at the swimming pool at the ARC in Clowne, in which 49 people booked on to attend.

Between the 2 events a total of £2,057 was raised. There was a shortfall of £181 which was donated by Woodhead's, to ensure the funding gap was achieved.

Chesterfield College Work Experience Award

On 5th June 2019 we were invited to Chesterfield College Student Awards in which Woodhead's were nominated for the College's Work Experience Employer of the Year award.

The award was specifically related to the work experience opportunities which have been created through the B@HOME Framework. We were delighted to not only be nominated but to win the award.

Total Outputs to Date

Output	Target Based on 100 Completed Units	Outputs Achieved to Date	Target Achieved

/Grants to Voluntary Organisations Programme

Bolsover District Council has awarded grants to third sector/voluntary organisations over a number of years, each receiving an agreed amount annually to support the objectives of that organisation. The table below identifies the annual financial contribution agreed by the Council for the 2019/20 financial year.

Organisation	Grant Awarded 2019/20
Groundwork Creswell Mansfield and Ashfield	£13,600
Derbyshire Law Centre (DLC)	£18,000
Derbyshire Unemployed Workers Centre (DUWC)	£19,900
Junction Arts	£16,000
North East Derbyshire Citizens Advice Bureau (NEDCAB)	£19,000
TRUST	£3,650
Rural Action Derbyshire	£2,265
TOTAL	£92,415

The table below shows, for the period April to September 2019, the estimated value of outcomes by individual organisations achieved through the services provided (NB other funding has contributed to the outcomes achieved; the Council's investment is not therefore 100% attributable).

Organisation	Value of Outcomes
Derbyshire Unemployed Workers Centre (DUWC)	£359,479
Junction Arts	£97,678
North East Derbyshire Citizens Advice Bureau (NEDCAB)	£777,037
TOTAL	£1,234,194

NB Outcomes of all organisations funded through this programme will be provided in the 2019/20 end of year report

/ Derbyshire Unemployed Workers Centre (DUWC)

Outputs achieved April to September 2019

- ✓ £484,227 recovered from appeals tribunals
- ✓ £321,775 of additional benefits claimed
- ✓ 1 volunteer recruited/retained

/ Case Study

We were visited at our Shirebrook Office by a woman claiming Universal Credit (UC). She was visibly distressed, and during our face to face conversation, she revealed the extent of her difficulties being a UC claimant and the hardship she was experiencing, which also included rent arrears.

The woman had been advised to contact us by a friend who believed that her UC payments seemed a little on the low side. She said she was unable to work and was previously claiming Employment and Support Allowance (ESA) before moving to UC, (she handed over to us a DWP letter confirming that she had ESA support group status) because she had moved to a new local authority area and had to seek help with her rent; the woman had a dependent child and received child benefit. She did have claimant commitment to obtain benefit despite being quite ill.

We asked the woman if we could view her UC online account and her payments. She agreed and we were to discover why she was in so much hardship. Firstly, we discovered that there was a shortfall in her rent (the UC housing element was not covering her actual rent)-secondly, there was no Limited Capability for Work Related Activity Element (LCWRA) within her

UC standard amount - this was worth £336.20 a month.

We rang the DWP UC Section and highlighted the woman's problems. It was confirmed that when she moved to UC originally she had ESA support group status so the UC equivalent LCWRA element should have been added to her claim. As for the housing element in UC -it was discovered that the DWP had her child as a non-dependent because they had the wrong date of birth on their system - so reducing the housing element payable.

All the above issues were rectified, with a substantial amount of arrears of UC elements being paid to the woman - we also advised a claim for Personal Independence Payment (PIP). We were later contacted by the woman who thanked us and told us she was now in receipt of PIP.

/ Junction Arts

Outputs achieved April to September 2019

- ✓ 7,684 people have attended events and exhibitions in the district
- ✓ £49,440 member of a social group
- ✓ £96,475 Good neighbourhood

/ Case Study

Junction Arts are working with Bolsover Partnership and the Shirebrook Forward NG20 Group on a year-long project, which began in 2018, to deliver a range of art and design projects and activities aimed at brightening the centre of Shirebrook. The project will help to meet three aims of the Building Resilience programme:

- ✓ Building community pride and identify - improving perceptions of the area and developing stronger connections between people and place
- ✓ Community involvement - ideas and improvement that are created and shaped by local people
- ✓ Safe and welcoming spaces - creating a bright, lively and attractive Market Square, in which residents and visitors feel welcome

Between April and September this year we have produced part one of a documentary about the project. We interviewed retailers, participants, co-ordinators and residents to tell the

story of the project so far. You can watch the film on our YouTube channel here: <https://www.youtube.com/watch?v=Vnt98ylleX8>

In July we attended Shirebrook Academy's Industry Day with The University of Sheffield. Students from MA Urban Design and Planning brought a virtual reality game for students to play based on Shirebrook Market Square. In teams, students used the VR headset to try and local 3 items in the market square. They also spent time speaking to university students and professors about urban planning, university and how they feel about Shirebrook Market Square.

Final artworks for the shutters were agreed in July and the first shutter was installed in August. Junction Arts and the partnership team have been continuing to sign retailers up for shutter artworks and throughout August and September these have been installed. The artwork has already brightened up the area and is a conversation piece amongst local people.

/ North East Derbyshire Citizens Advice Bureau (NEDCAB)

Outputs achieved April to September 2019

- ✓ 3,274 debt/benefits enquiries received
- ✓ 455 housing specific (including homelessness) enquiries received
- ✓ 240 volunteer hours

/ Case Study

Background

Thomas is 40 years old, single and lives in local authority property. He receives Income related Employment Support Allowance, Housing benefit and Council tax Support. Thomas has two children that he sees only rarely since he split from his partner. Lack of contact is caused by limited finances to travel to see them as they now live in a different part of the country but also he needs help to plan & undertake the journey. This impacts on his mental wellbeing. Thomas has disabilities including one that means that he is unable to use his left arm effectively and also has dyslexia. He also has mental health issues and has previously been a patient at the Hartington Mental Health Unit at Chesterfield Royal Hospital. Thomas came to see a Citizens Advice caseworker on the recommendation of his GP to establish whether he was entitled to any additional financial support.

How did we help?

The Citizens Advice caseworker made Thomas aware that he could be entitled to a benefit, Personal Independence Payments (PIP). PIP is extra money to help you with everyday life if you've an illness, disability or mental health condition. You can get it on top of Employment and Support Allowance or other benefits. The assessment of entitlement is based not on the condition you have or the medication you take but on the level of help you need because of how your condition affects you. Thomas had received a disability benefit

in the past but this had stopped a long time ago when he was in hospital.

The Citizens Advice caseworker assisted Thomas to apply for PIP. Due to his disability, Thomas finds it difficult to get dressed, wash and get out of bath. Thomas cannot effectively prepare a meal because of the disability. He finds it difficult to remember to take his medication and needs support because of his mental health. The application is complex and fully explaining a person's situation is critical to success. The caseworker liaised with adult social services to help facilitate further understanding of Thomas' issues at home and his mental health to inform options as to what support and care might be available after an assessment. The Citizens Advice caseworker also researched local charities that may be able to provide funds so that Thomas could visit his children.

Outcomes of Advice

Personal Independence Payments were awarded £108.25 per week, worth £5629 per annum. Due to receiving PIP, Thomas was entitled to additional premiums in his Employment Support Allowance that reflected his disability. These premiums increased his income by £4298 per annum. Thomas received a charitable payment of £100 and was able to visit his children for the first time in a long time.

Thomas now feels better able to live independently.

/BNED LEADER 2014-2020

Update: October 2019

Bolsover North East Derbyshire (BNED) LEADER is a European Funded Programme which aims to develop a vibrant, dynamic and diverse rural economy and increase economic productivity and growth.

The primary objectives of the Programme are job creation and economic growth within the rural economy, with projects meeting one of the six priorities:

- ✓ Support for increased farming productivity
- ✓ Support for micro/small enterprises and farm diversification
- ✓ Support for tourism activities
- ✓ Provision of rural services
- ✓ Support for culture and heritage activities
- ✓ Support for increased forestry productivity

The current Programme commenced in 2015 and we have recently approved the final 3 projects of the 2014-2020 BNED LEADER Programme which sees our allocation spent.

No. of Projects Supported			Grant Awarded (£)			Jobs Created		
Total	BDC	NEDDC	Total	BDC	NEDDC	Total	BDC	NEDDC
37	12	25	£1,248,696	£541,366	£707,330	69.82	41.75	28.07

In total, 98 Expressions of Interest (EOIs) have been received 95 of which have been invited to Full Application.

Overall 37 of these applications have been contracted and 10 have been rejected at either the ECR stage or LAG approval meetings.

46 applicants have withdrawn from the process citing problems with match-funding, arranging quotes and programme complexity and 2 contracted projects have had their grant funding agreements withdrawn due to non-compliance of LEADER processes.

The table below shows the split of the grant monies awarded across all 6 LEADER priorities.

PROJECT GRANT REQUEST BY PRIORITY						TOTAL GRANT APPROVED
Increasing Farming Productivity	Micro and small enterprises and farm diversification	Rural Tourism	Rural Services	Culture and Heritage Activity	Increasing Forestry Productivity	
£222,911.47	£524,589.80	£230,721.34	£210,269.37	£0.00	£38,436.70	£1,248,695.88

The Programme has now moved into the monitoring phase. All the beneficiaries of the live projects are being kept in contact with to ensure that their project remains on track and to help with any issues that arise ensuring that all RPA processes are fully complied with.

All beneficiaries are aware and are regularly reminded that the cut-off for final claims being submitted to the LEADER team is October 2020 and close monitoring will continue to ensure that this timescale is met.

The RPA has now issued Post Payment Monitoring forms and guidance and the LEADER team are starting to process these for all the completed projects (projects that have submitted and been paid their final claim).

The Economic Development Units and Partnership Strategy Teams of BDC and NEDDC have played a key role in promoting the scheme, supporting applicants and undertaking project appraisals.

Promotion

Promotion will shift to case studies of completed projects in the near future. Closed project details are now starting to be added to the website (www.bned-leader.co.uk/index.php/projects-2014-2020) and more will be completed after the busy application processing period. Tours of completed projects will also be organised for BNED Local Action Group members and key partners up to the end of the Programme and an evaluation of the impact of BNED LEADER and lessons to learn for the future will also be a particular focus for the team.

BNED LEADER Staffing

Nicola Parsons joined the team in August 2020 and as she has previously worked on the BNED LEADER programme has hit the ground running and required minimum refresher training. Nicola will be part of the team until March 2021.

Sharon Stevenson,

BNED LEADER Programme Officer

15th October 2019

/ Bolsover District Statistical Insight

T This section of the Bolsover Partnership bi-annual report aims to give the reader an insight into some of the key statistical data available for Bolsover District.

Data in this Statistical Insight report focuses on vulnerable groups within the district and has been extracted from the Local Insight Profile for Bolsover district, which uses data from government agencies, collected and updated by OCSI. Further information can be found at <http://local.communityinsight.org/>

Future bi-annual reports will focus on different thematic areas.

/ Finding your way around this Local Insight profile

Population

There are 79,100 people living in Bolsover

Education & skills

33% of people have no qualifications in Bolsover compared with 22% across England

Vulnerable groups

19% of children are living in poverty in Bolsover compared with 17% across England

Economy

39% people aged 16-74 are in full-time employment in Bolsover compared with 39% across England

Housing

1% of households lack central heating in Bolsover compared with 3% across England

Access & transport

23% of households have no car in Bolsover compared with 26% across England

Crime & safety

The overall crime rate is lower than the average across England

Communities & environment

The % of people 'satisfied with their neighbourhood' (71.5%) is lower than the average across England (79.3%)

Health & wellbeing

25% of people have a limiting long-term illness in Bolsover compared with 18% across England

/Vulnerable groups: Deprived neighbourhoods (1)

What information is shown here?

The information on this page looks at overall levels of deprivation across Bolsover based on the Index of Multiple Deprivation (IMD) 2019. IMD 2019 is the most comprehensive measure of multiple deprivation available. The concept of multiple deprivation upon which the IMD 2019 is based is that separate types of deprivation exist, which are separately recognised and measurable. The IMD 2019 therefore consists of seven types, or domains, of deprivation, each of which contains a number of individual measures, or indicators.

The information boxes on the right show the number of people in Bolsover living

in neighbourhoods ranked among the most deprived 20% of neighbourhoods in England on IMD 2019 and the seven IMD domains. The chart on the right shows the number of people living in neighbourhoods grouped according to level of deprivation. The charts on the following pages show the same information for each of the domains. All neighbourhoods in England are grouped into ten equal sized groups “deciles”; the 10% of neighbourhoods with the highest level of deprivation (as measured in the IMD) are grouped in decile 10, and so on with the 10% of neighbourhoods with the lowest levels of deprivation grouped in decile 1.

Number of people in Bolsover living in the most deprived 20% of areas of England by Indices of Deprivation (ID) 2019 domain						
Index of Multiple Deprivation		Income domain		Employment domain		Education domain
17,025		16,976		24,657		36,256

/ Vulnerable groups: Deprived neighbourhoods (3)

/Vulnerable groups: Children (1)

What information is shown here?

This page looks at children in out of work households, children in poverty and children in lone parent households. Children in 'out of work' households, are defined as dependent children living in families where all adults are in receipt of Jobseeker's Allowance, Income Support, Employment and Support Allowance, Incapacity Benefit/Severe Disablement Allowance or Pension Credit. This measure includes Universal Credit claimants. The children in poverty measure shows the proportion of children (aged 0-15) in families in receipt of out of work benefits, or in receipt of tax credits where their

reported income is less than 60% median income. Out of work means-tested benefits include: Income-Based Jobseekers Allowance, incapacity benefits and Income Support.

The information boxes below show the count of people in each of these three categories in Bolsover. The bar chart shows the percentage for Children in 'out of work' households and Children in poverty categories across Bolsover and comparator areas. The line chart shows the year on year change in the proportion of children in out of work households.

Children in 'out of work' households (2017)
2,460
17.6% (England average = 13.5%)

Children in lone parent households (2012)
4,050
25.0% (England average = 27.2%)

Children in poverty (2016)
2,735
19.8% (England average = 17.0%)

Child Wellbeing Index

What information is shown here?

The information on this page shows levels of child wellbeing across Bolsover as measured using the Child Wellbeing Index (CWI) from 2009³. The CWI is a small area index measuring child wellbeing - how children are doing in a number of different aspects of their life. The index covers the major domains of a child's life that have an impact on child wellbeing and that are available for neighbourhoods in England. The CWI is made up of seven domains.⁴

The eight information boxes below show the number of people in Bolsover living

in areas ranked among the most deprived 20% of neighbourhoods in England on CWI and the seven domains. The chart on the right shows the number of people living in neighbourhoods grouped according to level of child wellbeing deprivation. All neighbourhoods in England are grouped into ten equal sized groups "deciles"; the 10% of neighbourhoods with the highest level of deprivation (lowest level of child wellbeing) are grouped in decile 10, and so on with the 10% of neighbourhoods with the lowest levels of deprivation grouped in decile 1.

Number of people in Bolsover living in the most deprived 20% of areas of England by Child Wellbeing Index domain

Child Wellbeing Index	Children in Need domain	Material Wellbeing domain	Education domain
14,230	26,610	14,230	31,470
19.1% (England average = 20.2%)	35.8% (England average = 20.1%)	19.1% (England average = 20.2%)	42.3% (England average = 19.8%)
Environment domain	Health domain	Housing domain	Crime domain
5,665	31,610	0	12,855
7.6% (England average = 20.5%)	42.5% (England average = 19.9%)	(England average = 20.4%)	17.3% (England average = 19.8%)

Figure: Number of people in each deprivation decile, Child Wellbeing Index 2009

Source: Communities and Local Government (Child Wellbeing Index 2009)

³ Please note that there are currently no planned updates for this dataset, however we still consider it to be relevant.

⁴ Material wellbeing - children experiencing income deprivation; Health and disability – children experiencing illness, accidents and disability; Education - education outcomes including attainment, school attendance and destinations at age 16; Crime - personal or material victimisation of children; Housing - access to housing and quality of housing for children; Environment - aspects of the environment that affect children's physical well-being; Children in need – vulnerable children receiving LA services.

/Vulnerable groups: Pensioners

What information is shown here?

The information on this page looks at pensioner groups including those that may face greater risks or who may have different types of need. There are three measures included: pensioners without access to transport, pensioner loneliness and pensioners in poverty.

Pensioners without access to transport are those with no access to a car or van. The dataset only includes pensioners living in private households.

There are two indicators of pensioner loneliness. The census provides a measure of the proportion of pensioners living alone (defined as households of one pensioner and no other household members). In addition, Age Concern have developed a Loneliness Index (which predicts the prevalence of loneliness amongst people aged 65+) based on census data. Areas with a value closer to

0 predict a greater prevalence of loneliness amongst those aged 65 and over and living in households compared to areas with a value further away from 0.

Pensioners in poverty are those in receipt of Pension Credit. Pension Credit provides financial help for people aged 60 or over whose income is below a certain level set by the law.

The information boxes present information on the counts of pensioner households or pensioners in each category. The chart on the top right shows the change in the proportion of people receiving Pension Credit across Bolsover and comparator areas.

The chart on the bottom right compares Loneliness Index scores across Bolsover and comparator areas - a value closer to 0 predicts a greater prevalence of loneliness amongst those aged 65.

Private pensioner households with no car or van (Census 2011)
3,484
46.7% of pensioner households (England average = 40.8%)

Households of one pensioner (Census 2011)
4,411
59.2% of pensioner households (England average = 59.6%)

State pension claimant (DWP Feb-19)
15,512
98.9% (England average = 97.9%)

Pension credit claimant (DWP Feb-19)
2,305
14.7% (England average = 13.6%)

Figure: Pension Credit claimants, Source: Department for Work and Pensions (Nov-18)

/Vulnerable groups: Households with multiple needs

What information is shown here?

The information on this page looks at household deprivation and households with multiple deprivation.

The information boxes show the number of households which are deprived in one of the four Census 2011 deprivation dimensions. The Census 2011 has four deprivation dimension characteristics: a) Employment: Any member of the household aged 16-74 who is not a full-time student is either unemployed or permanently sick; b) Education: No member of the household aged 16 to pensionable age has at least 5 GCSEs (grade A-C) or equivalent AND no member of the household aged 16-18 is in full-time education c) Health and disability: Any member of the household has general health 'not good' in the year before Census or has a limiting long term illness d) Housing: The household's accommodation

is either overcrowded; OR is in a shared dwelling OR does not have sole use of bath/shower and toilet OR has no central heating. These figures are taken from responses to various questions in census 2011.

Households with multiple deprivation are households experiencing four key measures of deprivation:

- ✓ All adult household members have no qualifications
- ✓ At least one household member is out of work (due to unemployment or poor health)
- ✓ At least one household member has a limiting long-term illness
- ✓ The household is living in overcrowded conditions

Household is not deprived in any dimension (Census 2011)
11,691
35.6% (England average = 42.5%)

Household is deprived in 1 dimension (Census 2011)
10,206
31.1% (England average = 32.7%)

Household is deprived in 2 dimensions (Census 2011)
8,541
26.0% (England average = 19.1%)

Household is deprived in 3 dimensions (Census 2011)
2,253
6.9% (England average = 5.1%)

Households suffering multiple deprivation (Census 2011)
110
0.3% (England average = 0.5%)

/Vulnerable groups: Other groups

What information is shown here?

The information on this page looks at the number and proportion of people in two groups with specific needs: mental health issues and people providing unpaid care.

The figures for people with mental health issues are based on Employment Support Allowance/Incapacity Benefit claimants who are claiming due to mental health related conditions. Incapacity Benefit is payable to persons unable to work due to illness or disability.

Informal care figures show people who provide any unpaid care by the number of

hours a week they provide that care. A person is a provider of unpaid care if they give any help or support to another person because of long-term physical or mental health or disability, or problems related to old age.

The line chart on the right shows the change in the number of people claiming Incapacity benefit for mental health reasons as a proportion of the working age population and the chart below it includes figures for children and all people providing unpaid care across Bolsover.

Mental health related benefits (DWP Nov-18)	People providing unpaid care (Census 2011)	Unpaid care (50+ hours per week) (Census 2011)
1,775	9,623	2,690
3.6% of working age adults (England average = 2.5%)	12.7% (England average = 10.2%)	3.5% (England average = 2.4%)
